

INOX

Product information

TALURIT®

Stainless steel Ferrule - recommended for machine pressing only. Used in fields with high demand for resistance to corrosion. Suitable for long term use in salt water, waste water treatment and chemical processing. Only the material AISI 316 is used due to the requirements mentioned.

Material: Stainless Steel

Note: We do not guarantee strength of slings for lifting activities made of INOX ferrules. A termination performed according to our instructions will normally withstand a tensile strength of 90% of the minimum-breaking load (MBL) of the wire rope. Verifying tests must be done in order to find out the strength. Available in sizes 1-30.
