

Marine Slings or Boat Lifting Slings

Product information

Slings for lifting boats, the slings are white to prevent discoloration in salt water.

Design: Double sewn, flat woven slings with folded eyes. Alternatively with "shortening eyes" on request.

Chemical resistance: Resistant to most acids but not strong alkalizes.

Stretch with working load: 2-3%.

Length tolerance: Nominal length $\pm 3\%$.

Always apply and use extra protections to protect the sling from sharp edges, abrasion, wear and tear, due to the shape of the boat (keel & side).

Contact CERTEX for further information.

Material: Polyester.

Marking: According to standard, The slings are provided with a blue label with manufacturer's symbol, working load limit (WLL), length, CE marking and a label with handling instruction.

Temperature range: Approx. -40°C up to $+100^{\circ}\text{C}$.

Standard: EN 1492-1

Safety factor: 7:1.
