

Pallet Fork Type 6020F

Product information

Pallet fork for handling of standard pallets from the long side.

Design: Thanks to the spring-loaded lifting eye, the pallet fork is self-balancing, which means that the forks are always horizontal, regardless of whether the pallet fork is empty or loaded. Please note the minimum load specified in the table. Concealed spring and linkage.

Proof: Batch proof 2 x max load.

Material: Beam and plate of high-strength structural steel.

Marking: Minimum load, maximum load and CE-marking.

Finish: Yellow painted.

Note: Other sizes and designs are available upon request. For custom made forks the type has some restrictions regarding small loads and low profile goods (measure H).

Part Code	Code	WLL ton	Height m	Min load kg	Tp max* mm	A mm	E mm	H mm	L mm	S mm	Weight kg
13.306022F	6022-F	1.5	1.5	300	500	700	980	1,500	485	50	86
